5 April 1965

MEMORANDUM FOR: Assistant Director for National Estimates

Re the attached, I would like clarification of the following:

1. I note that I, as Acting Chairman of USIB, received Copy #179 of the IAP document. Who holds the 178 copies which rank mine?
2. Has the use of the term "Front" (see Table IIIA 2) been coordinated with and approved by Cord Myer and the FBI?
3. Re Table IIIA 9, have Power, Exciter and Emission been matched sufficiently against the mobility, frequency, and penetration factors?
4. Ref Tab IIIB 6, page III-38, I have never reconized or areed with the contention that framentation is a desired objective for warheads.

18/

Marshall S. Carter
Lieutenant General, USA
